Graphics and Icons

Our data visuals translate complex information into clear, engaging graphics. We keep them clean, modern and easy to read, with a design that aligns with our brand's digital, data-driven look.

How we build them:

Layout:
Use simple, spacious layouts with rounded corners to keep the visuals friendly and accessible.

Colours:
Apply our core brand colours for highlights and data points (e.g. vibrant orange and deep blue) to create contrast and focus.

Background:
Place metrics on our signature blurred gradient backgrounds with a subtle pixel pattern for a premium, high-tech feel.

Typography:
Use clear, bold type for key figures and labels to ensure instant readability.

Icons & Lines:
Add smooth lines, minimal icons and subtle glow or shadow to guide the eye without clutter.

Consistency:
Always align charts and labels precisely, and use the same style for similar metrics to maintain a consistent look.

The goal:
make data look as sharp and impactful as the results we deliver.
